It Saved the Day on 'Change from Actual Stagnation.

CALL LOANS NOT VERY STIFF

Rate of Interest for Sixty and Ninety Day Loans Was Seven Fer Cent. Bonds Were Not

NEW YORK, Dec. 2.—To-day's transactions in the stocks were smaller than those of yesterday. Only a few got as much as a point away from ast night's close at at any time during, the day. There was a sight advance in the morning in sympathy with special movements in one or two stocks, but a reaction in the aftermoon carried the level of prices a fraction below last night all around, and the market closed easy, but very dult. Quite an active speculation in Sugar was the principal influence in sating the day's deallings from actual stagnation. The movement during the day of an advance in prices of refined sugars. After this announcement the stock reacted. The emphatic discaliners of recent rumors of a compromise amongst the warring copper factions and a late reaction in the London copper market to-day combined to cause a reaction in Amaigamated. The movement of these two stocks had an important sympathetic effect on the whole market, owing to the preponderance of the dealings in them. In the late weakness Louisville was conspicuous for a drop to 1½ below last night.

The day's developments in the money

in the late weakness Louisville was conspicuous for a drop to 1½ below last right.

The day's developments in the money market offered no prospect of early relief, and until that prospect appears no revival in speculation is expected.

The sub-Treasury took from the money market yesterday \$1.415.00. bringing its total absorption since the last bank statement up to \$2.58.00. The sub-Treasury also had a credit at the clearing-house tids morning, indicating a continued drain from the money market. Late in the day rumors were current, without confirmation, that further shipments of gold are to be made to South America.

To-day's sterling exchange market here was firm, in spite of additional offerings of loan bills and another day's large foreign demand both for wheat and cotton, but the sterling rate at Paris reacted 1½ centimes, thus raising the gold export level of sterling.

The call loan market was not quite \$50 stiff, owing partly to the almost total lack of demand, but sixty and ninety day loans were made at 7 per cent, and for four months both 6 and 8 per cent, were paid. The difficulties of berrowers, of course, vary with the grade of their credit and their collateral holders of stocks are very loth to market securities owing to the poor absorption power of the market. On the other hand there is little incentive to pay above six per cent, for money to hold railroad stocks at prices which yield generally less than 5 per cent.

The bond market was little more than nominal and the movement was irregulant. Total sales, par value, \$1,655,000. the bond market was integrated and the movement was irregular. Total sales, par value, \$1,650.00. United States old 4s, coupen, advanced and the registered declined 4 per cent. on the last call.

The total sales of stecks for the day were 243,400 shares.

MONEY AND EXCHANGE-CLOSE: MONEY AND EXCHANGE-CLOSE: Money on call firm at 406 per cent.; closing offered at 4 per cent.; time money, firm: sixty and ninety days, 7 per cent.; four months, 608 per cent.; six months, 60 per cent.; prime mercantile paper, 6 per cent. Sterling exchange firm with actual business in bankers' bills at \$4.87.25 for demand and at \$4.87.50 for sixty days' bills; posted rates, \$4.8412 and \$4.88; commercini bills, \$4.874,04.834. Bar silver, 475; Mexican dollars, 37. Government bends irregular; railroad bonds irregular.

COTTON MARKETS.

NEW YORK, Dec. 9.-The cotton mar-NEW YORK, Dec. 3.—The cotton market opened steady at an advance of 163 points, or at the best figures of the session, on better cables than looked for with the Liverpool market showing a net rise of 3524 points. For a time there was a fair degree of public interest, and net rise of 3½64 points. For a time there was a fair degree of public interest, and during the early forenoon the market held steady on this and covering, when ruble interest subsided and the local traders attacked the market. Under the latter selling prices worked off 568 points, after which there was a partial rally, started by the smallness of the internior movement, the semi-weekly figures, showing receipts of 68,335 bales against 12,935 for the corresponding period last, and only half what they have averaged for a period of five years. Port receipts were also disappointing, being 42,734 bales against 74,865 bales last year. On this showing the "Insight" figures for the week were calculated at about 46,000 bales against 425,458 last year and 459,632 for the year 1900. The selling for short account was almost entirely upon the assumption that a searcity of cars and bad weather accounted for the smallness of the movement. New Orleans was a pretty good buyer in the local market to-day, with the spot markets of the sustained to 1-16c, higher. Total sales futures estimated at 50,690 bales. The market was steady and net unchanged to 2 points lower.

The Produce Market.

The Produce Market.

Some evit influence seems to be operating upon the produce market in Richmond. Unknown causes are depressing the trade in two or three different directions, and produce men are at a loss to understand what to expect.

"We closed last week with the expectation that things would brighten up by Monday morning." said a merchant yesterday. "Every indication pointed to a brisk trade. But what we really find is far fro mencouraging. In some respects the market is dulier than ever, and worst of all, we don't know why it is. It is not the weather any more, for we couldn't ask for better."

The market is particularly dull on poultbeauth.

the weather any more, for we couldn't ask for better."

The market is particularly dull on poultbananas and peanuts. A day or two ago a local merchant felt he had sufficient reason to quete to two large poultry raisers in Southwest Virginia prices ranging around 12½ and 13 cents. When the stuff began to come in the market was very slow at 11½ to 12 cents. Nobody knows why it is, but the condition exists. Until the new peanut crop began to come in everybody was buying peanuts. Now nobody seems to want them, and the nuts are languishing at 3½ cents per pound. Bananas are simply a glut on the market. Some of them sold yesterday at 16 to 20 cents per bunch.

The prices prevailing on the market at this time are as follows:

Poultry (Live)—Chickens, 10 to 11c, per pound; hens, 9 to 10c, per pound; ducks, 9 to 11c, per pound; turkeys, 8 to 9c, per pound; geese, 40 to 65c, each; roosters, 25 to 30c, each; guineas, 20c, each.

(By Associated Press.)

WASHINGTON, December 2.—The Senate devoted most of the day to the immigration bill, and adopted a number of amendments. There was considerable amendments. There was considerable discussion during the day upon an amendment offered by Mr. Burton, of Kansas, to admit Chinese laborers to Hawaii, which met with considerable opposition and finally was laid on the table. The provision in the bill prohibiting the sale of liquor in the Capitol building caused a little flurry, and criticlem of the House for putting it in the bill. The provision, however, was not stricken out. During however, was not stricken out. During the day the milltia bill was discussed. It will be taken up again Thursday. An amendment to the immigration bill offered by Mr. Balley, of Texas, was adopted provided that skilled labor may be imported if labor of like kind cannot

be found in this country.

CONGRESSIONAL LIQUOR.

The amendment prohibiting the sale of liquors in the Capitol was taken up, and Mr. Berry, of Arkansas, declared that the Capitol was not the proper place to

run a saloon.

Mr. Penrose, answering him, said the paragraph was stricken out because the committee thought it was not a proper place for it.

Mr. Bailey, of Texas, contended that

"What did you say your initials were?" asked the Senator. "I have a long list of my fool friends, and I would like to add your name to thelist."
"That's all right, Senator," said the regulering who had made the introduce. each house of Congress had authority to act in the matter without any law of gentleman who had made the introduc-tion, but we want you for President, and we are going to have you. What we want Mr. Tillman said he wanted a little

light on the subject. He had been in-formed, he said, that no liquor was sold in the Senato end of the Capitol. "The House is simply playing a hypo-critical game before the people." said he, "and endeavoring to make the Senate attend to its morals."

The amendment was rejected, which has the effect of retaining the clause in the bill prohibiting the sale of liquor in

the Capitol.
THE CHINESE QUESTION.

THE CHINESE QUESTION.

Mr. Burton sought to secure action on his amendment, but Mr. Mitchell, of Oregon, of the Committee on Pacific Islands and Porto Rico, interposed an objection on the ground that his committee should first consider it. The amendment had the effect of opening up the discussion of the Chiuese question, soveral Senators participating in the debate. Mr. Burton declared that the Hawaiians

bate.

Mr. Burton declared that the Hawaiians cannot make money, because the Japanese laborers have raised the price of labor higher than the traffic will bear, and he added that they are not as good citizens as the Chinese.

In the course of the discussion which followed, Mr. Tillman remarked that there may be other parts of the United States that might want labor, and he did not see "why we should discriminate in favor of a few corporation pets who own sugar plantations in Hawaii."

Mr. Foraker differed with him, and insisted that it was intended to benefit all the people of Hawaii.

Mr. Burton said the Porto Ricans taken to Hawaii proved failures, but the Portugese had done very well. White men would not work in the sun in the Hawaiian climate. Hence he thought the Chinese should be allowed to go to Hawaii for agricultural purposes only. He added that he thought such immigrants should be placed under bonds, and in response to Mr. Bacen, said he did not consider such conditions would render the Chinaman a slave.

Mr. BallEY'S VIEW OF 17.

Mr. Penrose moved that the amendment be laid upon the table. The motion pre-

be laid upon the table. The increase prevailed without division.

On motion of Mr. McComas, the section of the bill relating to the exclusion of anorrchists was amended so as to make it specifically provide for the exclusion of anarchists who advocate the destructions of the companying of the United ion of "the government of the United states or of all governments by violence." While the debate on this motion was regress Mr. Hoar remarked that there are some governments whose destruction by violence he would accomplish if he

The Senate then, on motion of Mr. Cul-om, went into executive session and shorty after adjourned.

WASHINGTON, D. C., December 2.—
After debating the London dock charge
bill for almost four hours, the House today chopped its head off by striking out
the enacting clause. 138 to 1.2.

This killed the bill. The debate was
spirited on both sides, and all day the
members were flooded with telegrams. The
withdrawal of the support of the lumber
and meat packing interests, which originally joined hands with the floar milling
interests in pressing the measure, brought
about its defeat. The final vote was 138
to 129 in favor of the bill on motion to o 129 in favor of the bill on motion to

to 129 in favor of the bill on motion to strike out the emeting clause... Speeches were made in favor of the bill by Mr. Tawney, of Minnesota, and Mr. Richardson, of Alabama, and against by Messrs. Adamson (Georgia), Wanger, Adams and Dahell (Pennsylvania); Burleson and Burgess (Texas) and Mann (Illinois). OBJECT OF MEASURE.

Mr. Tawney explained at length the purpose of the bill, which, he said, applied only to the port of London and was simply designed to relieve the American shipper of the charge made by the transporting companies for delivering goods over the side of the vessel. This charge, he now said, was included in the contract of shipment. The bill would prevent such

i contract. Mr. Adamson, of Georgia, a member of the committee which reported the bill, opposed it, first on the ground that it ongsit to prevent the liberty of contract, and second because, he said, it was supported practically by a single interest, Mr. Mann read many telegrams from

firms which had formerly supported the bill, stating that after investigation they desired to change their position.

One of the monkeys yesterday started in

One of the monkeys yesterday started in to learn the electrician's trade. He mount-ed to the top of the building and made a preliminary examination of the fuse box, through which the electric wires run.

After he had evidently satisfied himself he returned to his friends and held a con-cultation. From such remarks as the

menkey fraternity had to make on the subject of fuse boxes the presumption is that they may make a request for elec-

ric heaters being placed in their cages No attempt will be made by the new elec-

trician to do any work, as he is not a member of the union, and might cause the carpenters to go out on a strike.

Exciting Runaway.

A curious runaway accident occurred at the corner of Ninth and Main Streets yesterday morning about 11 o'clock. A horse hitched to one of Sweeney's transfer wagons took fright at Ninth and Grace Streets and started down Ninth Street hill at a rapid gait. As he reached Main Street he converted a lead of each to which two

encountered a load of coal, to which two mules were being driven tandem. He struck the outil immediately between the two mules, and his short but dashing career as a runaway was cut short. After

ASSISTANT ATTORNEY

Neither Judge Lewis Nor Mr. Coles Has Anything to Say.

Congressman-elect Slemp, in an interview here before he left for home, stated that he in no manner endorsed the candidacy of Hugh Gordon Miller for the position of assistant district attorney for this district.

On the contrary, Mr. Slemp said that he was most friendly to the candidacy of Malcolm Coles, whom Judge Lewis had intimated was his choice. Neither Judge Lewis or Mr. Coles

would talk on the subject yesterday af-ternoon, and the matter remains as it
